

CAPABILITY STATEMENT

Environmental Health Services is a premier independent multidisciplinary consultancy specialising in architecture, project management, occupational hygiene, and environmental science services.

With over 30 years of experience, our team has been delivering exceptional, reliable services to both the public and private sectors.

Leveraging our in-depth understanding of industry best practices, legislative requirements, and effective management strategies, we are committed to providing timely, accurate, and comprehensive information—precisely when and where you need it.

EHS' integrated & multidisciplinary technical services cover a broad range of activities in the construction and property management industries. We can facilitate the success of your project from initial design through to assuring the successful & safe delivery of your project.

EHS works with you to add value to your projects, reduce risk, and improve your confidence in your daily operations. We are agile, working hard to be there for you when we are needed, 24-7.

Why choose us?

Reliability – We've been around a long time, we've seen businesses come and go, we've survived and thrived because we know what we do.

Integrity/Honesty – We don't try to be something we are not, honesty with our customers is essential to us building long term relationships.

Respected – We take what we do seriously, in many ways we are protecting humans from humans. It is extremely important that EHS is known as having the highest level of integrity, qualifications and experience.

Transparent – Our transparency is intrinsically connected to our integrity. We are open and honest about how we operate our business.

Communication – Our clear concise communication is influenced by our need to provide reliable knowledgeable advice.
